COMPASSION MINISTRY RESOURCE SYSTEM

VOLUME 3

Compassion Ministry: From Vision to Launch

A Practical Guide for Developing and Launching a Compassion Ministry

DESCRIPTION

From Vision to Launch is the development and implementation manual in the system. It is designed for the space between recognizing a need and opening the doors, where leaders must make thoughtful decisions about purpose, people, capacity, partnerships, safeguards, finances, leadership, and follow-through.

Part I provides six foundations for launch: understanding community need, recognizing resources God has already provided, choosing an appropriate ministry scope, building partnerships, creating dependable structure, and evaluating the work. Part II turns those principles into a sequential 14-tool launch process. The tools are designed to be used, revisited, and updated as the ministry grows and circumstances change.

WHAT THIS VOLUME INCLUDES

- Six foundations for thoughtful ministry development
- A sequential 14-tool launch process
- Policies, teams, forms, finances, community networks, and launch readiness
- 90-day review, annual health check, continuity, and leadership transition

Designed as part of a coordinated five-volume system for biblical, practical, and sustainable compassion ministry.

TABLE OF CONTENTS

Compassion Ministry: From Vision to Launch

Introduction v

How to Use This Manual v
