COMPASSION MINISTRY RESOURCE SYSTEM

VOLUME 4

Leading Compassion Ministry

Leadership, Training, Sustainability, and Developing Others to Carry the Work

DESCRIPTION

Leading Compassion Ministry addresses the season after launch, when leadership becomes less about beginning something new and more about faithful stewardship over time. It focuses on how leaders protect the mission, train and encourage people, address unhealthy patterns, share responsibility, and keep the ministry faithful to Christ and respectful of the people it serves.

The volume moves from leading from the heart, to leading teams, to leading for the long journey. It includes practical Leadership Labs at the end of each chapter and concludes with an eight-workshop Leadership Training Toolkit. The emphasis is not on creating a leader who controls everything, but on developing healthy ministry culture, strong teams, new leaders, wise transition, and a ministry capable of continuing faithfully through changing seasons.

WHAT THIS VOLUME INCLUDES

- Character, people, culture, and stewardship of influence
- Team building, volunteer training, mentors, boards, communication, and conflict
- Leader care, faithfulness, developing others, change, transition, and legacy
- Leadership Labs plus eight ready-to-use training workshops

Designed as part of a coordinated five-volume system for biblical, practical, and sustainable compassion ministry.

TABLE OF CONTENTS

Leading Compassion Ministry
