COMPASSION MINISTRY RESOURCE SYSTEM

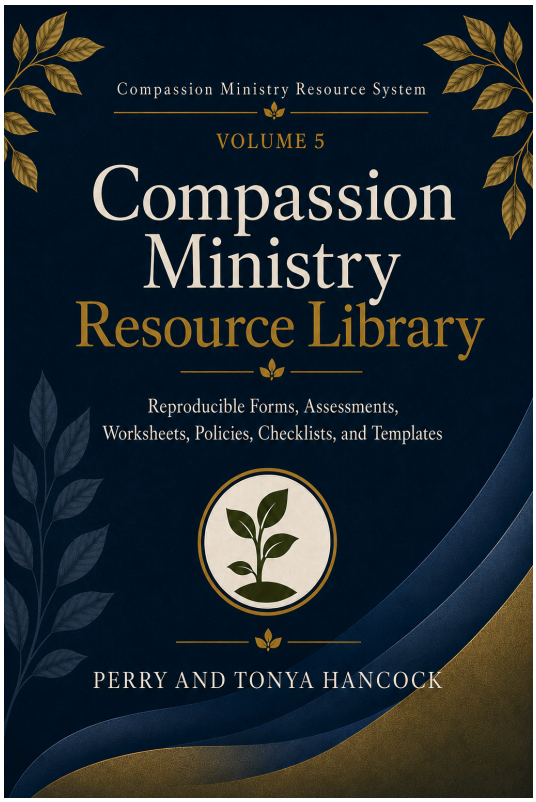

VOLUME 5

Compassion Ministry Resource Library

Reproducible Forms, Assessments, Worksheets, Checklists, and Templates for Compassion Ministry

DESCRIPTION

The Compassion Ministry Resource Library is the working companion to the four teaching volumes. It brings together 80 reproducible resources that churches and ministries can adapt for local use, while keeping paperwork in its proper place: supporting compassion rather than becoming the purpose of the ministry.

The resources are organized into ten practical sections covering ministry administration, governance, staff and volunteers, mentoring, participant intake and progress, safety and privacy, referrals and partnerships, program delivery and adult education, evaluation and finance, and leader care and transition. The library is designed so leaders can select only the forms they genuinely need and adapt them to approved policies, local requirements, and the actual structure of their ministry.

WHAT THIS VOLUME INCLUDES

- 80 reproducible resources in 10 practical sections
- Administration, governance, staff, volunteers, and mentoring
- Participant forms, safety, privacy, referrals, partnerships, and education
- Evaluation, finance, leader care, team health, handoff, and closure

Designed as part of a coordinated five-volume system for biblical, practical, and sustainable compassion ministry.
